

Viking Thurs. Tour 29 Jan/15

Our 9 km looped excursion into this non-track set realm of ski trails, is entirely free from roads or habitation. This backwoods trail network (oddly named "Terres publique sous CAAF") is tucked away in the northern tip of the Morin-Heights municipal boundary and has an eclectic set of trail names, to compliment their prosaic numbering!

Our ski tour took us on:

Lovers Leap (No. 16), Swiss (No. 19), Viking West (No.15), Rapide Blanc (No.21), La Chasse-Galerie (No.38) 7 Lac Green (No.20)

Expectations were that we would be in for a lot of trail breaking, but in fact the combination of much apparent ski traffic and the prolonged deep-freeze made for "firm and fast" trail conditions!

Our thanks to local ski resident participant Judy who was happy to have her home converted into a apres-ski Tea Salon for frigid Vikings!
